The reason I am for the reform of the fire service because I have been a firefighter for 29 years and in my experience you need 7 on the fire ground or at least to know that another truck is on route. This is about Firefighter safety and OH&S because if you are at a call for an extended period, with exposure to all sorts of dangers, it is extremely precarious.

The Volunteers provide a magnificent service, but to constraints beyond their control, are not always available to respond therefore no back up, which means further property loss and therefore increased cost.
