As a paramedic I know the vital need for response times and the fine line between the loss of property, injury, life and death. I find it incredibly hard to believe the fire service boundaries have not changed in a significant way in the last 60 years.

We need reform and a new fresh look in the fire service to comply with the growing population and with this the increasing suburban boundaries. This is particularly vital for the outer-metro areas such as Dandenong, Springvale, and Craigieburn.

Experiencing the success of the amalgamation of the ambulance services becoming Ambulance Victoria, I look forward too and fully support the reform of the fire service.
