From no recycling to zero waste: how Ljubljana rethought its rubbish

https://www.theguardian.com/cities/2019/may/23/zero-recycling-to-zero-waste-how-ljubljana-rethought-its-rubbish?CMP=Share_iOSApp_Other

I would like to submit this article from the Guardian about the small European Country of Slovenia as I think they are developing efficiencies that are a great model in many ways. It's important to expect more from our citizens and to have something tangible to offer in return. Eg higher expectations of home recycling and a resultant improvement of amenities.
