Subject: Submission re recycling ideas
Date: Monday, 27 May 2019 11:44:42 PM

Dear Sir/Madame,

I'd love it if like in other states and countries, people get paid to bring in recyclables eg aluminium cans and plastic bottles.

Not only would this keep Australia cleaner and be good for the environment but it could also give the unemployed and homeless a way of making money and building their self-esteem by seeing how they are helping their environment.

Many thanks for your consideration,

Sincerely,

Jacqueline Rozenfeld
