Inquiry Name: Inquiry into Recycling and Waste Management

Ms Nikkola Mikocki-Bleeker

[REDACTED]

[REDACTED]

SUBMISSION CONTENT:

--

My submission (detailed below) refers specifically to the item:

4. strategies to reduce waste generation and better manage all waste such as soft plastics, compostable paper and pulp, and commercial waste, including, but not limited to:

In particular, I wish to submit on items:

- b. container deposit schemes
- c. banning single use plastics

I would like it to be known that I strongly support the introduction of a state-wide container deposit scheme in Victoria. I believe such an initiative would incentivise recycling in the state and go some way towards meeting the current recycling crisis.

Further, I support the policy of banning single-use plastics. This ban is long overdue. There is little reason in current times to further encourage habits of disposability.
