The Secretary
Legislative Council, Environment and Planning Committee
Parliament House, Spring Street
EAST MELBOURNE VIC 3002

Dear Sir or Madam

Support for the submission by the Municipal Association of Victoria into the Inquiry into Recycling and Waste Management

Murrindindi Shire Council supports the detailed submission that has been made by the Municipal Association of Victoria (MAV). We consider this submission covers the key concerns that Council has about the state of play in the recycling and waste management industry.

We would emphasize that the current state of play in the recycling and waste management industry demonstrates that more is required of state and federal governments to support viable, long term options to manage our waste.

The opportunity is that significant resources, in the Sustainability Fund, are available for state government to work with other levels of government and industry to reinvigorate reprocessing and remanufacturing of a range of materials in Australia.

Council is keenly interested in the outcomes of this inquiry and considers the development of a sustainable and circular waste and recycling economy to be a very high priority for the state government. Further correspondence on this matter should be directed to Stuart McConnell, Director Assets and Development who can be contacted as follows:

[REDACTED]

Yours faithfully,

[REDACTED]
