Section 4 b - Container deposit scheme

(1) I believe that a drink container deposit/refund scheme WILL work as it did in my youth (glass bottles)as well as that of my children (cash a can). Individuals and groups would benefit.

(2) Drink container rubbish is a continuing problem in our waterways. Specifically the City of Melbourne's Trin Warren Tam-Boore Wetlands in Parkville. Recent re-planting also resulted in almost 6 cubic metres of such rubbish being removed.

(3) I regularly participate in planting, weeding, bird surveys and other nature related activities in Royal Park.

I am a member of Royal Park Protection Group and Friends of Royal Park.

Thankyou for this inquiry.

Marg Jungwirth (66 years old) [REDACTED]
