

RECEIVED 9 JULY 2015

Dear Keir Delaney,

C.S.G. came to my attention two years ago when I came to live in Sea Spray Victoria. I believe that C.S.G. mining is not beneficial to our community.

I couldn't help thinking of the pain of the people living in the Gladstone district in Queensland who were told to leave their homes where mining took over, how un-Australian.

Pollution of our precious land at the cost of the well being of people, is there a choice? No!, Mining is take, agriculture is give.

Mining and agriculture cannot co-exist its like putting a ferret cat in a budgie cage.

How long do we have to wait for a decision, and the decision, No will remove the dark cloud hanging over our heads and release us to live an Australian life dont take that blessing away from us with the wrong decision!

Yours Sincerely
