Subject: Submission to Inquiry on Unconventional Gas

I am opposed to all forms of unconventional gas (UCG) mining, including coal seam gas, tight gas, shale gas & underground coal gasification.

I reject the conflict of UCG with other land uses, such as agriculture & tourism.

I am particularly concerned about the impact of UCG on aquifers and surface water and I believe there is enough documented history of such impacts that they are beyond doubt.

I request that UCG mining not be allowed in Victoria.
