Subject: Opposition to Unconventional Gas Mining

Dear committee members,

We are a retired farming couple now living in Hamilton, Western Victoria.

The whole of South West Victoria is highly valuable as a food and fibre production area; and we do not want this compromised.

We wish for any ban on unconventional gas drilling to be permanent.

We are very much in favour of increased investment in other alternative sources of renewable energy production, including, wind, solar thermal and geo-thermal.

We believe that unconventional gas extraction has near total local disapproval.

We accept that this proposal for this form of gas exploration is THE ASBESTOS OF OUR TIME and therefore plead with you to consider the consequences of this and not let this proposal proceed.

Yours sincerely

Andrew and Jill Milne
