--

I am a 64 year old retired person. I wanted to get away from the city and pollution and built a new home on rolling unspoiled farm land. I DO NOT WANT my locality ruined by gas exploration and/or fracking.

We already have big open cut mines in Yallourn, we don't need any more.

Gippsland is a major area for producing good clean FOOD. WHY do we want to risk any of that for gas and coal we can get elsewhere or do not need to dig up anyway? We have enough coal in existing mines to last hundreds of years.

Please be assured that I will join any fight to stop further mining or exploration here.

The Govt is SUPPOSED to represent the will of the people, and the vast majority of people here

have said they DO NOT WANT more mining.

So, please, DO WHAT WE ARE TELLING YOU, not what your Party Fund contributors want, which is just another opportunity to gouge out profits from a region they don't have to live in.
