**To:** EPC  
**Subject:** New Submission to Inquiry into Unconventional Gas in Victoria.

Inquiry Name: Inquiry into Unconventional Gas in Victoria.

Mrs Judith Goddard  
[REDACTED]

Committee  
Birregurra against unconventional gas mining  
[REDACTED]

**SUBMISSION CONTENT:**

--

As a resident of this beautiful clean green region I am afraid for the future of our surrounding land. Land farmed by 4th and 5th generation farming families, through blood sweat and tears, have supplied families all over Australia with food to survive.

All this is put at risk with the prospect of unconventional coal seam gas mining. There is overwhelming evidence of the contamination to land and water tables, the degradation of agricultural holdings and surrounds , Documented evidence of health issues amongst children of families in Queensland, exposed to this form of mining.

PLEASE. We must have energy supplies, but NOT THIS WAY. There are sustainable procedures to pursue.

For the sake of OUR. Farming, OUR food, OUR. Children's future,  
Please consider our FUTURE
