Submission to Parliamentary Inquiry into Unconventional Gas

Dear Sirs/Madams

I would like to express my opposition to unconventional gas extraction. j

Fracking and other methods of unconventional gas extraction have proven hazardous in other parts of the world. The effects of this type of extraction can adversely affect agricultural land, bush land and tourism.

Local communities at present bear the brunt of opposing and campaigning against mining and power companies who apply for these licences. The Victorian government needs to step in earlier and deem these methods unsafe and exclude them from the Victorian landscape.

Yours sincerely

Julie Constable
