Subject: No unconventional extraction of fossil fuels in Victoria.

Dear Sir/Madam

I believe there should be a permanent ban on unconventional extraction of fossil fuels.

We know there are threats by this practice to our climate, our water supply and our most beautiful natural places.

If we want a fair shot at a safe future, **we must stop the irresponsible extraction of fossil fuels.**

Couillard rules out fracking, Geoffrey Vendeville, Montreal Gazette, December 16, 2014

"I don't think there is a big interest in developing this resource on the economic or financial levels. Anyway, the social acceptability isn't there," he said in an exclusive interview with Radio-Canada.

Cantabria, SPAIN

"Shale-Rich Spanish Region Votes To Ban Fracking", EurActiv.com, April 9, 2013

Lawmakers in Spain's northern Cantabria region unanimously voted on Monday (8 April) to ban hydraulic fracturing on environmental concerns, shooting down the central government's hopes for a project to boost jobs in a region believed to be rich in shale gas.

These a just a few countries and regions that have banned or ceased fracking.

Are they all wrong?

Wake up Australia and preserve not pollute our natural assets for the future of our populations and our planet.

No Fracking In Victoria.

Sincerely,

Denise Schimana
