Spring Street,
Melbourne. Vic. 3002.

SUBMISSION re Unconventional Gas Drilling:

I am a farmer living in South Western Victoria.
My household and farm are dependent on
underground water.

I am concerned re health risks and
water quality effected by drilling and use
of chemicals.

I am concerned re agricultural productivity
and land values.

I am generally concerned re the
environment.

I support Victoria banning all
unconventional gas drilling permanently.
