

To Environment Planning Ref Committee

To Committee Members,

My name is Ian Ken - 55 farm
at Baldo Road Winnap.

I produce wool lambs beef & grow
trees, for timber.

As far as gas mining is concerned
I don't want any more exploration
on my land, with any damage
to water table or pollution etc.

I strongly suggest the gas be
left where it is for future generations
- not greedily over seas companies.

Yours faithfully,
