Submission for Unconventional Gas inquiry

To the Environment and Planning Committee,

I am writing to you, as an extremely concerned member of Moriac.

The reason why I bought property in the town of Moriac & built my home in 2008, was because of the quiet, healthy, rural environment, that's not impeded by industry. This purchase is also an investment for my future. I am extremely protective of this, as I only have this backing my future, due to being on a disability pension. A Gasfield in the area, is highly likely to put my future at great risk to not only the price of my property, but also my own health & I fear that this is at risk, because of a Petroleum Licence (PEP163).

This is why I am standing by my other fellow concerned citizens of Moriac & am totally for a Gasfield free environment in the Surf Coast & the whole of Victoria.

Regards

Danielle Haywood
Concerned citizen of Moriac
