**Subject:** Submission to the Environment & Planning Committee Inquiry into Unconventional Gas in Victoria

To the Environment and Planning Committee,

This email is to add my voice to those who do not want to have fracking in this state (or even in the country) I believe it is unnecessary and even if we were running out of resources the long term costs are not worth it.

I believe any proposal at this type of resource mining should be knocked back.

Yours sincerely

Roslyn Leary
