Dear Sir

I wish to ask for better laws to protect animals in the Animal Agriculture industry . Could they please be covered under the prevention of cruelty to animals laws that cover companion animals . These animals on farms and slaughterhouses home through horrific cruelty and practices such as castration and lamb marking without anesthesia. Crowded and disease conditions are present in many factory farms that give no quality of life to those animals within them .

I plead for you to please have some CCTVcameras in place to record any acts of violence and cruelty toward animals so there is some accountability in an industry that seems to have none .

Animals need us to be their voice as they are vulnerable and helpless.

Animals agriculture is also a leading cause of climate change that needs to be addressed urgently

I sincerely request that my submission is given consideration and Thank you for your time in reading it .

Yours Sincerely

Tania Harrison
