

Inquiry Name: Inquiry into the Impact of Animal Rights Activism on Victorian Agriculture

Miss Carly Marks

SUBMISSION CONTENT:

--

If the Animal Agriculture industry insists on hiding their horrific treatment of animals behind veils of misleading advertising and our governments allow that to happen then - BRING ON THE WHISTLE BLOWERS. We have a right to know how our food is produced, we have a right to freedom of speech, we have a right to freedom of information - All of which would be stymied if Ag Gag legislation were to ever go through. Please never let such a terrible law be passed!
Carly Marks.
