Please acknowledge that animals are sentient beings and protect them from cruel and inhumane treatment.

No religion has a right to cruelty.

Please protect the whistleblowers that call out these hideous acts of cruelty. Its truly alarming whats ACTUALLY happening to these poor animals, and definitely needs to be exposed. The public have a right to know.

As public servants entrusted by the people of Australia, you must act, with the full force of the law, against those committing crimes re animal cruelty. These places should be shut down immediately.

Australians hate animal cruelty... and an abattoir is no acception.
