SUBMISSION CONTENT:

--

Australians hate animal cruelty, yet you insist on vilifying those who expose it. If you want to stop people from trying to enter your farms and rescue animals from cruelty, then stop doing it. And if over two thirds of Australians want an end to live export because of its appalling and egregious cruelty, how can this be a democracy if you still support it? Even many farmers hate live export.

You have been lied to. Watch 'Dominion'.
