[REDACTED]

SUBMISSION CONTENT:

--

I believe it is time that the intensive farming of animal agriculture is carried out with transparency.
Increasing fines for whistle blowers will not improve the current situation.
There is much done in the name of animal agriculture in the darkness of lack of exposure which most Victorians would find abhorrent. Time to be transparent. End live export, and it's terrible cruelty, please.
I fully support the submissions of the following people:
April Meddick, Jen Gamble, Jacki Jacka, Elliott Taylor, Erica Vernon, Jacqueline Rowe
Please consider providing protection to all farmed animals as is provided to domestic animals.
Thank you.
Frances Hingston
