SUBMISSION CONTENT:

--

Dear sir,
Submission for the inquiry with the impact of animal right activism on Victoria agriculture.

My submission is very straight forward. I am writing in support of whistleblowers as I don't trust industry and the government to protect animals. I have to rely on whistleblowers to provide information about what goes on behind closed doors in slaughterhouses.

The treatment of animals in slaughterhouses is disturbing. The animals are suffering and surely the people engaged in these horrific acts must be very troubled. We must protect the workers as well as the animals.

The only way to resolve this issue is to install cctv and make it available to the public. I want to know how animals are treated.
