**SUBMISSION CONTENT:**

--

I was so shocked at news of animal cruelty at abattoir in Melbourne yesterday and today that I had to turn off the news

I work as a general practitioner in Community Health and am proud to be a member of the Animal Justice Party.

I feel passionate about people and animals without a voice.

I feel sadness and shame at what appears to be happening and appeal to you to look into this urgently and make changes for example cctv in abattoirs.

thank you .
