

Inquiry Name: Inquiry into the Impact of Animal Rights Activism on Victorian Agriculture

Yasmine Awad

SUBMISSION CONTENT:

--

Dear parliament,

My name is Yasmine i'm 9 yrs old and I am a animal liberation activist.I became an activist after watching the documentary documentary Dominion. I started to think about my friends who I share the planet with, the animals and how the way us humans treat them is not right. Why must we hurt them the way we do? It's not right and not fair. I've taken part in actions and I'm very proud to say I'll stand by them always. If I see an animal down in a paddock I will definitely go and help them without thinking twice because I know In my heart that this animal needs me and that they are counting on me,aren't we suppose to help others in need no matter what specie they are? I think that all non human and human species are equal . As a child myself my mother taught me to speak the truth no matter what and I'll continue to do that. I love animals they are everything to me. I feel like it is my responsibility to speak up for them. The agriculture industry wants to silence us because they know that what they're doing to the animals is wrong.
