To whom it may concern

Dear Sir/Madam,

It is with a heavy heart I write this submission to plead with you or anyone in the parliament houses of this country to take action immediately on this case where animals are being subjected to the suffering and cruel death.

It is without question that this is yet another dark side of human nature showing we are capable of committing crimes on the voiceless and helpless victims of our world.

All animals truly don't deserve this as they are the innocent ones, showing us how to love and to be kind.

Please take action to stop this sad and shocking situation immediately to stop these shocking cruel deaths at the hands of these heartless and cruel people.

Sincerely,

Judi Connelli AM
