Hi my name is Honami i am 12yrs old amd i am a animal rights activist. First of all i think that everyone should love animals and should consider them as living beings. We are so ignorant that we just dont care about the animals life that is being taken away. It is so sad to hear that humans are so cruel to these beautiful cratures. I always thought that humans are kind, and generois to all beings. I guess im wrong. These animal farms are not necessary. We can get so many other foods that we can eat without harming anyone. I just want go say that killing animals i wrong and that we shoupd close all slaughterhouses!

Thanksyou
From Honami
