

ANIMAL ACTIVISTS BIO SECURITY. I am a farmer in Gippsland running Cattle , Sheep with Fat Lamb production together with one to two thousand Goats. It is of great concern to me that Animal Activists can trespass on farms in Victoria and receive One Dollar fines for breaches of State and Federal Bio Security Rules. WE and the State and Federal Government have spent Time , Effort , and considerable funds to protect ALL AUSTRALIANS from outbreaks of diseases which can and will cost ALL AUSTRALIANS , (A) Loss of income, (B) Increased cost of food (C) Potential for some type of famine. State and Federal Governments should be able to protect ALL AUSTRALIANS from these minority illegal activists and the possible consequences of their actions . I plead with you to legislate to remove the disapointing fines of just ONE DOLLAR , when ALL of AUSTRALIA Bio Security is at risk. WE ALL NEED ACTION TO PROTECT ALL AUSTRALIANS . Thank you for the opportunity to have a say,.
