

Inquiry Name: Inquiry into the Impact of Animal Rights Activism on Victorian Agriculture

Dr Victoria Sublette  
[REDACTED]

**SUBMISSION CONTENT:**

--

I am in full support of Animal Rights activism to reveal the truth behind animal agriculture. I am fully against AG GAG laws that prohibit animal cruelty to be exposed to the public.

It is my belief that if there are no wrongdoings or cruelty, then those who work in animal agriculture would not be opposed to animal activists taking photos and revealing to the public what happens behind barn doors, so to speak.

Please prevent censorship (AG GAG) laws and allow activists the freedom to inform the public about what actually happens in animal agriculture.
