### YOUR SUBMISSION

**Submission:**

The live music and events industry is in crisis it requires national and state border restrictions to be addressed and a new national agreement reached so touring can recommence.

There are thousands of jobs that are in limbo hundreds of businesses that may not survive another 3 months and the implications are we lose an industry that has given of itself to raise millions upon millions of dollars for drought, fire , flood, famine in this country and have got NOTHING back from government.

The live music industry creates more ticket sales. More jobs and more wealth than ALL sporting events of every code - do the math, get a clue.

Get off your hands.

Get to work and sort this problem.

Remember that music creates happiness .

I've given 55 years of my life to live music both here and overseas

My family 116 years and four generations

We have a clue in what's right and wrong
