

I further note my response to a question from a member of the Committee, Mr Melhem, (Pg 18) that I said regarding the Hire Car Industry "...the legislation totally precludes the assigning of the leasing of that [the MH licence]"

To summarise, for Mr Melhem, and others

The taxi industry operates on three levels: Owner (Owns the MT Licence); Operator (operates it – maybe as owner, maybe as assignee); Driver (drives the cab, may be owner, operator or bailee driver).

The hire car industry operates on two levels: Owner (owns the MH licence and the vehicle); Driver (may be the owner, may be an employee)

I trust that this information assists

Kind regards
André Baruch
