

Inquiry Name: Inquiry into Expanding Melbourne's Free Tram Zone

I am writing in support of making public transit free for all full-time students. I've lived in other cities where this is true, and it would support students. Equally though, it would help reduce the morning rush hour traffic. There is a striking difference in morning traffic between school days and term breaks, and providing students better access to public transit would encourage more students onto transit and reduce the morning rush hour.
