

The 2 hour fare is not enough time, when services are often delayed or cancelled.

I propose either a 3 hour or 4 hour fare *beginning exactly from when you touch on.*

The current myki system is unfair when it rounds up the current time:

eg someone who boards at 11.59am is granted a 2 hour fare until 13.59.
but someone who boards at 12.01pm is granted a 3 hour fare until 15.00.

Similarly someone who boards at 17:59pm is granted a 2 hour fare until 19.59pm but someone who boards at 18:01pm is granted an "all night" fare until 3:00am the next day.
