Unimelb is only three stops away from the free tram zone and STOP 1 is also an important transport hub for students, workers, and residents around this area.

Many students live in the city and they have to pay for the full fares when attending school and going back home after a two-hour class. This is not fair because they only traveled only 6 stops in total in a day but have to pay as equals to others who travel 20 stops train every day.

Finally, as Melbourne university is the top 1 uni in Australia, so many visitors admire this uni and would like to have a tour there. However, Vic Gov offers visitors much convenience to explore Melbourne city with route 35 and they are free to travel without buying a myki card. If they just want to have a look at the Top 1 University which is only 3 stops away, but they have to buy a myki card while they only planned to stay in the city for only one day, it that would be a disappointed point for these short-time international visitors.
