By extending the free tram zone to include the University of Melbourne campus, academics like myself will feel more comfortable to set short tasks that involve visiting the city without concern for burdening students with an additional cost.

There is an increased likelihood of visitors to Melbourne coming to the University of Melbourne, where they may interact with students and staff, benefiting from the beautiful campus environment.

If the goal is to provide support to students and people with lower incomes, then it would be best to extend the free tram zone to include zone 1 or beyond, as this would assist all to transit from home to their workplaces.
