

Dear inquiry

I'm hoping you will consider the hundreds of students travelling between our VCA Campus at Southbank and the Parkville campus of our University who would truly benefit from extending the free tram zone.

I make that trip numerous times a month via Swanston or Elizabeth Sts. and walk between Vic Market or from Melb Central to the Parkville campus in order not to have to pay a whole fare just for 4 very short stops.

There are literally thousands of cash strapped young students who need that extension! Not to mention hospital patients and their families...

Please consider the demographic and the geography. It makes total sense to extend the free tram Zone to Grattan St

Yours sincerely

Rinske Ginsberg
