

The natural boundary for the southern end of the free transport zone is the Arts Precinct, this includes the Victorian College of the Arts and the Conservatorium, the MSO and the Malthouse Theatre. It is arbitrary that the current free zone ends at the NGV. I makes no strategic sense. The free zone should be extended by one stop to reflect the full extent of the Arts Precinct and allow ease of access to this booming area.

Kind regards

Dr Annabelle Murphy
