

I am pleased to hear that the Government is considering extension of the free tram zone. I'm a long time inner suburbs dweller and tram user (beyond the free zone) and I now work at the University of Melbourne and I think that extending the free tram zone to include Stop 1 at the University of Melbourne would be a great initiative for the University and Melbourne City in general. It would put our students on a level footing with those of RMIT and reduce confusion for the many tourists who visit the beautiful city campus of the University of Melbourne each year.

Thank you for considering extension of the Free Tram Zone – I heartily support extension of the free tram zone to include Stop 1 at The University of Melbourne.

Thank you,
Jo
