

Inquiry Name: Inquiry into Expanding Melbourne's Free Tram Zone

Mr Kui Meng Ng

SUBMISSION CONTENT:

--

The popular free tram zone has the following benefits:

1. Saves time for those who would otherwise walk. This reduces pedestrian traffic.
2. Reduced motor vehicle use, reducing congestion and environmental impact.

Overcrowding can be resolved by using dedicated trams which operate only within the free tram zone. These dedicated trams may only need to be run on some lines and during some periods..

Extending the free tram zone increases its benefits, notably making it free for students living in or around the city to travel to Uni.
