

Inquiry Name: Inquiry into Expanding Melbourne's Free Tram Zone

The extension of the free tram zone will benefit almost every uni student, particularly those at unis such as the University of Melbourne which sits just outside the zone. Being a student, it is hard enough to afford living expenses such as food and housing and having to pay to travel only a few stops adds an extra unneeded cost. Paying \$2.20 for going one or two stop seems unreasonable when people can travel from one side of the city to another for that price. So, either extend the free tram zone or change the myki pricing system on trams.
