--

One must go back to the reasons why the Free CBD tram zone was introduced and rectify this financially unviable and unequitable solution. The service benefits Melbourne CBD residents as the city workers from other areas already invest in Myki pass or money cards for their journeys and have to face overcrowding in trams.

The myki readers for touching on/off in trams is the issue and should be fixed. In other words find more modern solutions to track location of myki card and apply the fare zone.
Scrap the free tram zones.
