I am a resident of North Melbourne and unfortunately need to attend the hospital for treatment on a regular basis. An expansion of the network would be of obvious advantage to me should an extension include to the hospital district. However, during my visits to the hospital I hear of many people struggling with parking in the area and even more so for parents attending the Childrens Hospital. They have so much to contend with already. This district is also inclusive of the many educational institutions in the area. I have always been a supporter of this strategy for our tourism, but in addition this could extend to our overseas student economy. Both quiet achievers to our wonderful State of Victoria.
