

As a motorcyclist I am appalled that the government Just accepts the fact that a death on a motorcycle is just another statistic . My experience shows me that the road conditions are a big factor as well as drivers are not aware of the serious situation we face in traffic Or on the roads , I am disappointed that the levy we pay When we register our bike is not used for our safety Wire barrier ropes scare me and has made me ride less . Why not let us decide what to do with OUR LEVY MONEY AND WERE IT SHOULD BE SPENT. THE GOVERNMENT IS SPENDING MILLIONS ON BIKE LANES and they don't even pay a levy towards it . Very disappointed. We are as important as every other road user .

Regards Anthony Fraietta
