--

I live in an area where there are 2 major roads with speed limit of 70 kmh and no safe way for pedestrians to cross. These roads are Andersons Creek Road and Blackburn Road Doncaster East. Neither road has any median strips or pedestrian refuges. Both roads are served by good public transport (buses) which I and many others use regularly. When alighting or catching the bus from the opposite side of the road to my residence, there is no safe way to cross. At the moment I have the ability to judge and cross quickly. As we age there is less ability to judge and avoid this fast traffic. Both these roads and many others which are similar need pedestrian refuges or median strips. There is only one pedestrian crossing with lights on this stretch of Blackburn Road and it is not near my street.
