**Subject:** Submission for Overtaking distances for Bicycles.

I run a Cycling group for over 50's through COTA Victoria.  
I have been running this group for 15 years, riding together 1 or 2 times a week.  
I would strongly support a minimum passing of at least 1 metre for all cyclists  
passed by motorists. And as many as cycle lanes as possible should be set up on roads to make this clear to  
motorists.  
I ask that this be considered in the review.

Regards,

Janet Bennett
