Subject: Bicycle Network's exemption clause

As a Bicycle Network member I would like to state that Bicycle Network's submission to this Inquiry does not represent my views.

I vehemently disagree with the Bicycle Network submission's exemption clause in section 5.3 on the following grounds:

- a) Any modification of the national standard 1m/1.5m passing law will put Victorian riders at risk and add totally unnecessary inconsistencies into law which will do nothing but continue to make cyclists exceptionally vulnerable road users
- b) Riding in a painted bike lane does not provide a safety barrier and is not always the safest route
- c) School zones should not be exempted

Thanks for your time.
