**Subject:** Bicycle safety

Please recommend / implement a mandatory 1 metre clearance distance on all suburban roads. (1.5 metres on 100 kph roads). Please adopt the standard that has been proven to work in other states.

Please do not exempt school zones. School zones are among the \*more\* dangerous sections of road and a metre matters even more there.

Please do not exempt painted bike lanes. Many of these so-called bike lanes are in dooring zones.

Yours sincerely

Alan Walker
