Subject: 1m matters

Dear committee.

My family are members of Bicycle Network but they dont represent our views, nor most members I suspect, on 1m -1.5m overtaking of bicycles laws.

It undermines the proposed legislation to at the last minute submit that 1m doesn't matter at under 50km/hr.

"A meter matters" at any speed where vulnerable bicycles and powerful cars mix.

There should be no confusion in a drivers mind... A METER MATTERS.

Thank you for your consideration.

Mark Lemmon.
