+++++

I ride my bike to commute as it is non-polluting and improves both my mental and physical health (as well as saving me money).

I don't like that my friends and family worry that I will become another statistic, injured, or worse, killed when riding my bike as a means of getting around.

There are too many cars on the road already, without me adding another one.

I agree with the Committee's decision to look at the examples of Queensland, ACT and Tasmania where safe passing laws have been introduced, or are being trialled, and how to run a public education campaign about the rule change.
